Dear Paul,

Beginning today I expect to get bogged down in preparations for the trip and writing. Playboy says they cannot summarize JFK in 5,000 words, hence cannot use. Had another and encouraging conference with another magazine yesterday but I've learned to take no encouragement from encouragement.

It now appears that I'll be able to stop off in N.O. on the way back, perhaps for as much as a week. If there is anything you think I should look into, would you please get it ready for me? If I'm lucky, I'll have a car available, as I did last time. I also plan to return there, with Bud, about 12/1, but it is this time you should brief me on your ideas on the literature I will try and see Mrs. Oberm this trip, try and get those pictu You by now have my notes. - have other materisl on this, as you know, that I think I'll recall. I'll now have no time for more notes. I never did get to reorganize the files.

On the Legall story, there are these names, new to me Ricard (right)von Mank Kleist, Uplands, Calif., Robert Clayton Bulck, American Bullfights now serving 20 yrs Jackwell Island, Barbara Warren.

The letter Wiley Yates wrote Garrison in May of 196' is not consistent with what Bell told me. The attached page is enclosed, to give you the numbers.

I've written Liebeler again, at Bud's suggestion. I still do not have his name, a la Lifton. Probably will enclose letter, if wife gets it typed or if I do not mail this today.

I presume you've seen the Times-Picayune stories about the Bringuier-Oswyon suit. These and the letters I've written almost guarantee I'll be served. Will phone Ubuly when I am there if I do not write him earlier. This means I'm my own live bait and may occupy my time in a way I do not now plan. The ACLU seems to have come apart down there, so I may have to be my own lawyer or ask Dean Andrews to represent me.

Best,
